

SUSTAINABILITY POLICY

At PERU LNG S.R.L. ("PERU LNG"), we are committed to creating a safe workplace for all employees and contractors and to serving as environmental and social stewards in the communities in which we operate.

We will continually pursue our position as a leading company through the following practices:

Lead

- Provide the direction and support to comply with internationally recognized standards for Environmental and Health protection, Personal and Process Safety.
- Take a risk-based approach, working to anticipate and mitigate potential impacts from our operations.
- Maintain the integrity of critical processes and equipment to ensure reliable, efficient and effective operations, maximizing availability and safety.
- Conduct our operations efficiently to prevent any environmental impact, minimize disturbance, conserve resources, protect biodiversity and ensure ecosystem services are maintained in the areas we operate.
- Train our employees to improve their skillset related to their job function.
- Understand the requirements of our off-takers in order to provide timely, efficient, safe, secure and sustainable services.
- Ensure Contractors meet all PERU LNG requirements and standards.
- Comply with all legal and corporate commitments, including those that protect neighboring communities and interested parties.
- Remain prepared for all emergencies with an effective emergency response program.

Continually improve

- Establish annual targets and objectives related to Quality, Health, Personal and Process Safety, Environment and Social performance.
- Investigate the root-cause of incidents and implement corrective actions to prevent recurrence.
- Review and monitor the performance of the Management System to identify opportunities for improvement.

Communicate

- Encourage workers to report any unsafe work conditions immediately and ensure all workers are aware of their right to refuse work that they deem to be unsafe.
- Foster an active culture of participation and consultation among workers in any matters related to the Management System.
- Continually inform workers of potential hazards and risks and respond timely to stakeholder concerns.
- Provide access to process hazard analyses and to all other information required to make the workplace safer.
- Provide clear and candid environmental information about our products, services and operations to customers, employees, government agencies and the public, as appropriate.
- Openly exchange information related to our business activities between communities, interested parties and PERU LNG.
